Note 1 In preparing this years annual statement, a discrepancy in the School Fund was found. Going over the records with the past treasurer Chris Welton, it was found that $863.65 of the School Fund money was left in the checking account, and had not been recorded in the ledger. The amount shown above is the correct amount to the best of my knowledge.

COMMENTS: There is practically no gain shown for this past year. The small gain indicated is mostly from interest on funds wisely placed in certificates and savings accounts and from the successful operation of the School. Fortunately the School Fund will be adequate to completely finance the preparation and production of a new set of code practice tapes this season. A raise in dues is imperative to retain the financial integrity of the club and the Board of Directors should promptly address itself to this matter.
